

The Mariposa County Resource Conservation District is soliciting bids for Design/Build Services for a Water Storage Tank at Bootjack Fire Station. Proposers are asked to submit qualifications and a proposal to complete preliminary designs provided, hire subcontractors, and build a 165,000-gallon water storage tank, and install hydrant, booster pumps, backup generator, and upgrade the well pump at the Bootjack Fire Station at 3883 Bootjack Lane, Mariposa, CA 95338.

Qualified, licensed and insured companies interested in submitting a proposal can download the RFP at our website mcrcd.net, or request it via an email including the company name, contact name, address, phone number and any company website to Virginia Cole, MCRCD Office Manager, at MariposaCountyRCD@gmail.com or by leaving a voice message at (209)966-0970 with the same information.

Bids are due Monday, May 17, by 5:00 pm. Qualified bids received will be evaluated and a contract awarded. Work will be performed under the direction of MCRCD and a project team consisting of Mariposa County Department of Public Works and Mariposa County Fire Department.
