

Get **FREE** help with **HOME HARDENING**

The Mariposa County Resource Conservation District (MCRCD) is ready to help you harden your home against wildfires.

There are many things you can do to increase the fire resistance of your home, but where do you start?

We can help.

MCRCD will provide:

- **FREE site assessment**
- List of **recommended improvements** specific to your home
- **FREE** vent screens & **FREE** installation

Taking action to make your home safer protects our entire community. One of the most common ways that wildfire embers enter a home is through attic and crawl space vents.

To protect our homes and community, we are offering the site assessment and the vent screen installation **FREE** of charge.

All you need to do is sign up!
